In 2002 young Fadime Sahindal was brutally murdered by her own father. She belonged to a family of Kurdish immigrants who had lived in Sweden for almost two decades. But Fadime's relationship with a man outside of their community had deeply dishonored her family, and only her death could remove the stain. This abhorrent crime shocked the world, and her name soon became a rallying cry in the struggle to combat so-called honor killings. Unni Wikan narrates Fadime's heartbreaking story through her own eloquent words, along with the testimonies of her father, mother, and two sisters. What unfolds is a tale of courage and betrayal, loyalty and love, power and humiliation, and a nearly unfathomable clash of cultures. Despite enduring years of threats over her emancipated life, Fadime advocated compassion for her killer to the end, believing him to be trapped by an unyielding code of honor. Wikan puts this shocking event in context by analyzing similar honor killings throughout Europe, Canada, and the United States. She also examines the concept of honor in historical and cross-cultural depth, concluding that Islam itself is not to blame—indeed, honor killings occur across religious and ethnic traditions—but rather the way that many cultures have resolutely linked honor with violence. In Honor of Fadime holds profound and timely insights into conservative Kurdish culture, but ultimately the heart of this powerful book is Fadime's courageous and tragic story—and Wikan's telling of it is riveting. Three unlikely friends become partners in heartbreak and hope during a middle school pottery class in this powerful, poignant novel—perfect for fans of Gordon Korman and Lynda Mullaly Hunt. At West Beacon Middle School, eighth graders Oscar Villanueva, Riley Baptiste, and Noah Wright become unlikely friends during Introduction to Clay class. Oscar, a football star, just lost his little sister to cancer. Riley's been dragged away from Philadelphia by her single mom to a new life in West Beacon, a tiny Pennsylvania coal town that's smaller than Riley's old school. Noah's spent his whole life as a homeschooler and just started West Beacon Middle School as a result of his parents' train wreck of a divorce. Through art, football, failure, faith, and trust, the friends help one another to piece things back together again. In

true friendship, they also discover that some injuries may never heal, some things can never be unbroken—and that's okay too. This volume, presented to Professor Pei on the occasion of his retirement from Columbia, contains sixteen studies by his former students in the fields of Romance philology and medieval literature. A devastating loss leads to an unexpected road trip in what Sarah Ockler calls a "beautiful, engaging journey with heart, humor, and just a pinch of Texas sass." Three days after learning of her brother Finn's death, Honor receives his last letter from Iraq. Devastated, she interprets his note as a final request and spontaneously sets off to California to fulfill it. At the last minute, she's joined by Rusty, Finn's former best friend. Rusty is the last person Honor wants to be with—he's cocky and obnoxious, just like Honor remembers, and she hasn't forgiven him for turning his back on Finn when he enlisted. But as they cover the dusty miles together in Finn's beloved 1967 Chevy Impala, long-held resentments begin to fade, and Honor and Rusty struggle to come to terms with the loss they share. As their memories of Finn merge to create a new portrait, Honor's eyes are opened to a side of her brother she never knew—a side that shows her the true meaning of love and sacrifice. This is a print on demand book and is therefore non-returnable. Perhaps no other theologian of the second half of this century has shaped theology so profoundly as has Jürgen Moltmann. He appeared on the world theological scene with his *Theology of Hope* (1964) and took most of its capitals by storm. His subsequent works have kept him at the forefront of the modern theological enterprise, and the power of his vision and the originality of his method have inspired a host of new theologians. In terms of fecundity, Moltmann's opus remains unmatched among his generation of theologians. More than 130 dissertations written so far on his thought -- most of them in the past decade -- testify eloquently to its continued attractiveness. In honor of Moltmann's 70th birthday, twenty-six of the world's leading theologians -- his friends, colleagues, interlocutors, and former students -- have contributed to this volume on the future of theology. Moltmann himself has always sought to be both contemporary and future-oriented: his theology can be viewed as an exercise not only from the perspective of God's future but also toward a new human future. Thus, a book on the future of theology takes up an aspect of "his" theme and "his" concern. Yet this volume also makes a significant contribution to theology in its own right, seeking as it does to address the present crisis of theology. As Miroslav Volf writes in his introduction, "On the threshold of the third millennium, the presumed queen of sciences has grown old and feeble, unable to see that what she thinks is her throne is just an ordinary chair, uncertain about what her territories are, and confused about how to rule in the realms she thinks are hers, seeking advice from a quarrelsome chorus of counselors each of whom thinks himself the king, and ending up with a divided, even schizophrenic, mind." The essays in this volume attempt to revitalize theology as it confronts a difficult future. Despite the formidable obstacles that threaten the very survival of theology in the next century -- religious and cultural plurality; the marginalization of theology in public discourse; increasing abstraction in the practice of theology; pressing issues of gender, race, poverty, and ecology; the seemingly archaic voice of theology in post-Christian societies -- the contributors to this volume all believe in the future of theology as a vibrant discipline. The *Future of Theology* is organized in three parts. "Challenges" deals with the external or internal problems that theology is facing. "Perspectives" offers proposals on how to meet the challenges. "Themes" concentrates on various issues that need special attention today. Together, these essays succeed in setting the theological agenda for the future of theology, and thereby serve as a fitting tribute to this volume's esteemed honoree. Wyer, Jr. has established himself as a prolific scholar in the history of social psychology. This book is a tribute to his contributions. It provides an introduction to the major issues and current thinking in the field, offering an analysis of the underlying processes that have long been the focus of Bob Wyer's own research including attention, perception, inference, and memory. In each of the chapters, scholars provide an in-depth analysis of these processes as they pertain to one or more substantive areas including attitudes, construct accessibility, impressions of persons and groups, the interplay between affect and cognition, motivated reasoning, and stereotypes, among other topics. Each chapter traces the development of ideas in the field by combining the review and synthesis of past scholarship with the assessment of current understanding and cutting-edge trends and issues. This work should benefit scholars, researchers, and advanced students in the fields of social and cognitive psychology. In Three Volumes. Additional Contributors Include Fielding H. Garrison, A. This collection of essays by major Renaissance scholars demonstrates the vitality and variety of current historical approaches to studying early modern England - itself developing new ways to view the past. Here are, for example, a hitherto unpublished memoir, a discussion of Shakespeare's printed texts, new biographical approaches to Tudor writers, the recovery of manuscript sources, the tracing of intertextual relations, the impact of Renaissance humanism, and close readings that join an understanding of words' ambiguity to a refreshed awareness of historical context. --From publisher's description. This volume is a collection of essays by various contributors in honor of the late Laurence Berns, Richard Hammond Elliot Tutor Emeritus at St. John's College, Annapolis. The essays address the literary, political, theological, and philosophical themes of his life's work as a scholar, teacher, and constant companion of the "great books." Included are essays interpreting biblical books, as well as books by Homer, Herodotus, Aeschylus, Sophocles, Euripides, Plato, Virgil, Dante, Spinoza, Milton, Rousseau, Darwin, Dostoevsky, Nietzsche, Camus, and H.G. Wells. Like their honoree, the essayists aim at understanding such books as their authors wished them to be understood for the light they shed on universal and timeless questions about God, nature, and human life which animated the authors themselves and which they saw fit to share, elegantly and eloquently, with thoughtful readers. Each essay is, in its way, a model of how to read and reflect on the writings of the great authors." First Published in 1990. Routledge is an imprint of Taylor & Francis, an informa company.
