Chivalry and Violence in Medieval Europe Feb 06 2021

Includes evidence from chivalric literature, chivalric mythology, knights and hermits, the Church and governing power, war and violence, prowess/honor/piety/status, war and tournament, conduct of war, looting and destruction, loyalty, nobility, largesse, formal manners, male bonding, sexual violence, Song of Aspremont, Crowning of Louis, Raoul de Cambrai, The Quest of the Holy Grail, The Death of King Arthur, Robert the Devil/Sir Gowther, The Romance of the Wings, The Book of the Order of Chivalry, L'Histoire de Guillaume le Marechal, Livre de chevalerie, Morte Darthur, etc.

A History of Education During the Middle Ages and the Transition to Modern Times Aug 20 2019

Chivalry and Violence in Late Medieval Castile Jun 29 2020 First full investigation in English into the role played by chivalric ideology, and its violent results, in late medieval Castile.

Sir Gawain and the Green Knight Nov 27 2022

Chrysanthemum loves her name, until she starts going to school and the other children make fun of it.

Ideas and Forms in English and American Literature: Poetry Dec 16 2021

Bloody Constraint : War and Chivalry in Shakespeare Sep 20 2019 War is a major theme in Shakespeare's plays. Aside from its dramatic appeal, it provided him with a context in which his characters, steeped in the ideals of chivalry, could discuss such concepts as honor, courage, patriotism, and justice. Well aware of the decline of chivalry in his own era, Shakespeare gave his

characters lines calling for civilized behavior, mercy, humanitarian principles, and moral responsibility. In this remarkable new book, eminent legal scholar Theodor Meron looks at contemporary international humanitarian law and rules for the conduct of war through the lens of Shakespeare's plays and discerns chivalry's influence there. The book comes as a response to the question of whether the world has lost anything by having a system of law based on the Hague and Geneva conventions. Meron contends that, despite the foolishness and vanity of its most extreme manifestations, chivalry served as a customary law that restrained and humanized the conflicts of the generally chaotic and brutal Middle Ages. It had the advantage of resting on the sense that rules arise naturally out of societies, their armed forces, and their rulers on the basis of experience. Against a background of Medieval and Renaissance sources as well as Shakespeare's historical and dramatic settings, Meron considers the ways in which law, morality, conscience, and state necessity are deployed in Shakespeare's plays to promote a society in which soldiers behave humanely and leaders are held to high standards of civilized behavior. Thus he illustrates the literary genealogy of such modern international humanitarian concerns as the treatment of prisoners and of noncombatants and accountability for war crimes, showing that the chivalric legacy has not been lost entirely. Fresh and insightful, *Bloody Constraint* will interest scholars of international law, lovers of Shakespeare, and anyone interested in the history of war.

Ideology, Reason, and the Limitation of War

Nov 03 2020

The fundamental aims of this book are two: to explore the interaction between religion and secular society in the formation as well as the dissolution of just war doctrine; and to investigate just war doctrine as an ideological pattern of thought, expressive of a greater

ideology. The author reconstructs the development of classic just war doctrine, showing it to be a product of secular and religious forces. From it he traces the growth of the doctrines of holy war and of modern just war. He demonstrates that the blending of two distinct traditions in the late Middle Ages has its counterpart in the century following the Reformation. The secularized just war doctrine exemplified in the writings of Grotius, Locke, and Vattel are related to the problems of war in our time. Originally published in 1975. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Ideals and Institutions Jul 31 2020

The Song of Roland May 09 2021 The Song of Roland is a book of poems by an anonymous author. It depicts a gory French tale of war, where General Charlemagne was ambushed in a remote Pyrenean pass, showcasing a symbolic struggle between Christianity and Islam.

War and Chivalry Dec 04 2020 This is the first large-scale study of conduct in warfare and the nature of chivalry in the Anglo-Norman period. The extent to which the knighthood consciously sought to limit the extent of fatalities among its members is explored through a study of notions of a 'brotherhood in arms', the actualities of combat and the effectiveness of armour, the treatment of prisoners, and the workings of ransom. Were there 'laws of war' in operation in the eleventh and twelfth centuries and, if so, were they binding? How far did notions of honour affect knights' actions in war itself?

Conduct in war against an opposing suzerain such as the Capetian king is contrasted to behaviour in situations of rebellion and of civil war. An overall context is provided by an examination of the behaviour in war of the Scots and the mercenary routiers, both accused of perpetrating 'atrocities'.

French Chivalry Dec 28 2022 The first chapter provides readers unfamiliar with medieval history the background required for understanding the chapters on chivalry.

Knights and the Age of Chivalry Sep 13 2021 An informative, richly detailed and vividly illustrated account of the medieval knight and his time.

Ethnic Ideals of the British Isles Dec 24 2019 A study of how various British groups expressed their ideals in the form of heroes.

Tilting at Tradition Oct 22 2019 Don Quijote and Le Berger extravagant criticize fiction but come in the shape of novels. Far from breaking with their respective traditions, they engage with the chivalric and the pastoral in a creative manner. Genre and imitation are key notions for assessing the status of the novels within literary history and the oeuvres of Cervantes and Sorel. With emphasis on the continuity of each writer's approach, Le Berger extravagant is considered in the context of Sorel's aim to educate readers and avoid romance stereotypes, while the Quijote is read as an individual take on the chivalric novel, rejecting the Spanish tradition in favor of the ironic Italian romanzo cavalleresco. Like Cervantes' Galatea and Persiles, Don Quijote reflects a specific tradition which in turn serves to illuminate the famous book. This study offers interpretations of the two novels, but extends its scope toward the authors' other works and additional contemporary sources including Avellaneda's 1614 continuation of Don Quijote.

A Companion to Chivalry Oct 14 2021 A comprehensive study of every aspect of chivalry and chivalric culture.

The Knights of Modernism      Feb 18 2022 According to the customary literary-historical and theoretical notion, the fact that the first modern novel represents a parody or travesty of the chivalric ideal merits no particular attention. Failing to become attuned to the real role of the chivalric ideal at the beginning of the era of the modern novel, commentators missed the chance to adequately review the role of chivalry at the end of that period. The modern novel did not only begin, but also ended with a travesty of the chivalric ideal. The deep need of a significant number of modernist writers to measure their own time according to the ideals of the high and late Middle Ages cannot, therefore, be explained by a set of literary-historical, spiritual-historical or social circumstances. The predilection of a range of twentieth century novelists for a distant feudal past suggests that there exists a fundamental poetic connection between the modern (or at least the modernist) novel and the ideals of chivalry.

Chivalry and Violence in Medieval Europe      Sep 25 2022  
Medieval Europe was a rapidly developing society with a problem of violent disorder. Professor Kaeuper's original and authoritative study reveals that chivalry was not simply part of the solution. Chivalry praised heroic violence by knights, and fused such displays of prowess with honour, piety, high status, and attractiveness to women. Though the vast body of chivalric literature, here examined, praises chivalry as necessary to civilization, most texts also worry over knightly violence, criticize all ideals and practices of chivalry, and often propose reforms. The knights themselves joined the debate, absorbing some reforms, ignoring others, sometimes proposing their own. Complexity likewise characterized the interaction of chivalry with major governing institutions ("church" and "state") emerging at the same time: kings and clerics both needed and feared the force of knighthood. This

fascinating book lays bare the conflicts and paradoxes surrounding the concept of chivalry in medieval Europe.

**Medieval Chivalry** Jan 17 2022 Emerging in the medieval period, chivalry embodied ideals that elite warriors cherished and practices that formed their profession. In this major new overview, Richard Kaeuper examines how chivalry made sense of violence and war, making it tolerable for elite fighters rather than non-knightly or sub-knightly populations. He discusses how chivalry buttressed status and profession, shaped active piety, and fostered intense warrior attachments and heterosexual relationships. Though showing regional and chronological variations, chivalry at its core enshrined the practice of prowess in securing honor, with this process significantly blessed by religion. Both kingship and church authority sought to direct the great force of chivalry and, despite tensions, finally came to terms with rising knightly status and a burgeoning military role. Kaeuper engages with a wide range of evidence in his analysis, drawing on the chivalric literature, manuscript illumination, and sermon exempla and moral tales.

**A New Companion to Chaucer** Jan 25 2020 The extensively revised and expanded version of the acclaimed Companion to Chaucer An essential text for both established scholars and those seeking to expand their knowledge of Chaucer studies, *A New Companion to Chaucer* is an authoritative and up-to-date survey of Chaucer scholarship. Rigorous yet accessible, this book helps readers to identify current debates, recognize historical and literary context, and to understand how particular concepts and theories affect the interpretation of Chaucer's texts. Chaucer specialists from around the globe offer contributions that range from updates of long-standing scholarship on biography, language, women, and social structures, to original research in new areas such as ideology, the afterlife,

patronage, and sexuality. In presenting conflicting perspectives and ideological differences, this stimulating volume encourages readers to explore additional paths of inquiry and engage in lively and informed debate. Each chapter of the Companion, organized by issues and themes, balances textual analysis and cultural context by grounding the reader in existing scholarship. Key issues from specific passages are discussed with an annotated bibliography provided for reference and further reading. Compiled with all students of Chaucer in mind, this important volume: Presents contributions from both established and emerging specialists Explores the circumstances in which Chaucer wrote, such as the political and religious issues of his time Includes numerous close readings of selected poems Provides points of entry to a wide range of approaches to Chaucer's works Incorporates original research, fresh perspectives, and updated additions to Chaucer scholarship A New Companion to Chaucer is a valuable and enduring resource for scholars, teachers, and students of medieval literature and medieval studies, as well as the general reader interested in interpretations and historical contexts of Chaucer's writings.

Chivalry and the Ideals of Knighthood in France During the Hundred Years War Apr 27 2020 Craig Taylor examines French debates on the martial ideals of chivalry and knighthood during the Hundred Years War.

Ideals and Morals of the French Nobility in the Twelfth Century Aug 12 2021

The Chivalric Romance and the Essence of Fiction 2021 Ranging from Chrétien de Troyes to Shakespeare, this study proposes that the chivalric romance is characterized by a centerless structure, self-conscious fictionality and a propensity for irony. The form is tied to historical reality, yet represents the archetype of imaginative literature, declaring its fictional

Jan 05

status without claiming to embody fixed truths. Through use of irony, the chivalric romance precludes conclusive interpretations, inviting readers to inhabit multifold fantasy worlds while uncompromisingly showing that an ideal world is only a fiction. Thus the reader is enjoined to confront the suspension of truth in their own lives.

The Ideals and Practice of Medieval Knighthood 2019 Nov 22

Chivalry and Knighthood in Scotland, 1424-1513 2021 Apr 08  
This work considers how chivalry was interpreted in 15th century Scotland and how it compared with European ideas of chivalry; the responsibilities of knighthood in this period and the impact on political life; the chivalric literature and the relevance of Christian components of chivalric culture.

Forging Chivalric Communities in Malory's Le Morte Darthur Jun 10 2021  
Forging Chivalric Communities in Malory's Morte D'Arthur shows that Malory treats chivalry not as a static institution but as a dynamic, continually evolving ideal. Le Morte D'arthur is structured to trace how communities and individuals adapt or create chivalric codes for their own purposes; in turn, codes of chivalry shape groups and their customs. Knights' loyalties are torn not just between lords and lovers but also between the different codes of chivalry and between different communities. Women, too, choose among the different roles they are asked to play as queens, counsellors, and even quasi-knights.

'Authentic' Knight Identities and 'Ideal' Depictions of Chivalry between c.1350- c.1410 in France Mar 19 2022  
Master's Thesis from the year 2020 in the subject Literature - Medieval Literature, grade: 1st, University of Chester, course: MA History, language: English, abstract: Using fictional and 'factual' literature, the dissertation attempts to understand the multiplicity of masculinity and individual knightly motivations caused

by competing factual and fictional depictions of chivalry. Overall, histories of chivalry and masculinity between c 1350-c 1410 in France have been treated singularly. The ideal qualities of chivalry have been treated as the reality for all-knights, when in fact chivalric ideologies were unique to individuals and overlapped in both factual and fictional literature of the period. Chivalry in the Middle Ages has often been defined as 'the religious and moral system of behavior that the perfect knight was expected to follow'. However, singular definitions of chivalry should be disregarded because displays of medieval masculinity and chivalry were a complicated mixture of social conditions, institutional influence, and individual motivation.

Saracens and Conversion      Jun 22 2022 At the heart of Wolfram von Eschenbach's *Willehalm* are Saracens: instrumental figures in the driving themes of conquest, loyalty, vassalage, chivalry, love-service and redemption that run through the text. When compared with Wolfram's French sources, *La Prise d'Orange* and *Aliscans*, *Willehalm* is revealed to be innovative yet true to the themes and figures of the original *chansons de geste*, indicating that Wolfram continued the retelling process that also played a part in the composition of his French sources. This book explores the role of Saracens in these texts, the implications of their conversion to Christianity and the portrayal of the ideals of chivalry as their depiction undergoes development from twelfth-century France to thirteenth-century Germany. The text begins with the cultural-historical setting and the development of key ideals and concepts and then analyses the Saracen figures in the texts, presenting an integrated reading of *Willehalm* and its source material and revealing Wolfram's intentions in his depiction of Saracens.

Sir Gawain and the Green Knight (A New Verse

Translation) \_\_\_ May 21 2022 A poetic translation of the classic Arthurian story is an edition in alliterative language and rhyme of the epic confrontation between a young Round Table hero and a green-clad stranger who compels him to meet his destiny at the Green Chapel. Reprint. 20,000 first printing.

Homoeroticism and Chivalry Mar 27 2020 Zeikowitz explores both affirming and denigrating discourses of male same-sex desire in diverse fourteenth-century chivalric texts and describes the sociopolitical forces motivating those discourses. He attempts to dethrone traditional heteronormative views by drawing attention to culturally normative 'queer' desire. Zeikowitz articulates possible homoeroticized spectatorial interactions between male readers and imagined or actual model knights, dramatized accounts of same-sex unions, and mutually stimulating - or competing - forces of homosocial and heterosexual desire in chivalric texts, such as Charny's Book of Chivalry , Sir Gawain and the Green Knight , and Troilus and Criseyde . He also examines how intimate male bonds are rendered sodomitically-inflected, dangerous attachments in chronicle narratives of the reigns of Edward II and Richard II.

Chivalric Stories as Children's Literature \_\_\_\_\_ Nov 15 2021 Knights and ladies, giants and dragons, tournaments, battles, quests and crusades are commonplace in stories for children. This book examines how late Victorians and Edwardians retold medieval narratives of chivalry--epics, romances, sagas, legends and ballads. Stories of Beowulf, Arthur, Gawain, St. George, Roland, Robin Hood and many more thrilled and instructed children, and encouraged adult reading. Lavish volumes and schoolbooks of the era featured illustrated texts, many by major artists. Children's books, an essential part of Edwardian publishing, were disseminated throughout the English-speaking world. Many are being

reprinted today. This book examines related contexts of Medievalism expressed in painting, architecture, music and public celebrations, and the works of major authors, including Sir Walter Scott, Tennyson, Longfellow and William Morris. The book explores national identity expressed through literature, ideals of honor and valor in the years before World War I, and how childhood reading influenced 20th-century writers as diverse as C. S. Lewis, J. R. R. Tolkien, Siegfried Sassoon, David Jones, Graham Greene, Ian Fleming and John Le Carre.

A Knight's Own Book of Chivalry      Oct 26 2022 On the great influence of a valiant lord: "The companions, who see that good warriors are honored by the great lords for their prowess, become more determined to attain this level of prowess." On the lady who sees her knight honored: "All of this makes the noble lady rejoice greatly within herself at the fact that she has set her mind and heart on loving and helping to make such a good knight or good man-at-arms." On the worthiest amusements: "The best pastime of all is to be often in good company, far from unworthy men and from unworthy activities from which no good can come." Enter the real world of knights and their code of ethics and behavior. Read how an aspiring knight of the fourteenth century would conduct himself and learn what he would have needed to know when traveling, fighting, appearing in court, and engaging fellow knights. Composed at the height of the Hundred Years War by Geoffroi de Charny, one of the most respected knights of his age, A Knight's Own Book of Chivalry was designed as a guide for members of the Company of the Star, an order created by Jean II of France in 1352 to rival the English Order of the Garter. This is the most authentic and complete manual on the day-to-day life of the knight that has survived the centuries, and this edition contains a specially commissioned introduction from historian Richard W. Kaeuper that gives the history of both the book and its

author, who, among his other achievements, was the original owner of the Shroud of Turin.

The Study of Chivalry Sep 01 2020 In a series of essays readers will find information about modern scholarship on the subject of chivalry and various suggestions for ways to teach some familiar and unfamiliar chivalric materials. Short bibliographies are provided for teachers' further use.

Chivalry and the Medieval Past Mar 07 2021 An examination of the ways in which the fluid concept of chivalry has been used and appropriated after the Middle Ages.

The Reign of Chivalry Jul 11 2021 Richard Barber, author of *Holy Grail: The History of a Legend* and *King Arthur: Hero and Legend*, has written an engaging and intriguing book on one of the most original concepts of the medieval mind. Profusely illustrated and redesigned for a new generation of readers. Profusely illustrated and redesigned for a new generation of readers, Richard Barber's classic *The Reign of Chivalry* presents a broad picture of the chivalric world, and shows how chivalry affected or was affected by great social movements, great writers and great events, and analyses the legacy it passed down to later ages. The opening chapter looks at the central figure of the whole chivalric world, the knight, and asks why he is such a different figure from other fighting men. Following sections deal with chivalry in relation to the main themes of medieval literature, especially the vast cycle of Arthurian romances, and discuss the attitudes towards chivalry of writers such as Jean Froissart, whose pages cast a golden glow over the harsh realities of war. Later sections look at chivalry's influence on the Renaissance and later culture, beginning with the knight's transition to gentleman. The element by which chivalry is now most remembered, its respectful, even adoring, attitude towards women, is the subject of a wide-ranging

discussion, covering both medieval reality and modern ideals. Richard Barber, author of *Holy Grail: History of a Legend, Myths and Legends of the British Isles* and *King Arthur: Hero and Legend*, has written an engaging and intriguing book on one of the most original concepts of the medieval mind.

*The Origins of Courtliness* Oct 02 2020 Selected by Choice magazine as an Outstanding Academic Book Argues that the origins of courtliness lie in the German courts, their courtier class, and the education for court service in the tenth and eleventh centuries.

*The Ideal Ruler in Medieval Bohemia* Feb 24 2020 The Ideal Ruler in Medieval Bohemia discusses the development of medieval concepts and ideas about just and unjust rulership in medieval Bohemia. This theme is examined in the context of the European political thinking between 6th and 14th centuries. Robert Antonin provides new insights into interpretations of medieval sources of various kinds and asks innovative questions regarding the legitimization of monarchic power, the importance of Saint Wenceslaus, the role of ancient and biblical motifs in the Czech sources, and the influence of chivalric ideals on concepts of power. The theme of the book revolves around medieval perceptions of ideal rulership, which is seen as one of the cultural-anthropological constants shaping the social reality of the contemporary world.

*Chivalry and the Ideals of Knighthood in France during the Hundred Years War* Aug 24 2022 Craig Taylor's study examines the wide-ranging French debates on the martial ideals of chivalry and knighthood during the period of the Hundred Years War (1337–1453). Faced by stunning military disasters and the collapse of public order, writers and intellectuals carefully scrutinized the martial qualities expected of knights and soldiers. They questioned when knights and men-at-arms could legitimately resort to violence, the true nature of

courage, the importance of mercy, and the role of books and scholarly learning in the very practical world of military men. Contributors to these discussions included some of the most famous French medieval writers, led by Jean Froissart, Geoffroi de Charny, Philippe de Mézières, Honorat Bovet, Christine de Pizan, Alain Chartier and Antoine de La Sale. This interdisciplinary study sets their discussions in context, challenging modern, romantic assumptions about chivalry and investigating the historical reality of debates about knighthood and warfare in late medieval France.

Knight of the Grail Code \_\_\_\_\_ Jul 23 2022 In an attempt to discover what has become hidden within the growing darkness of our society, Knight of the Grail Code examines the source of our natural, moral instincts and how following these transcendent morals can lead to physical, mental, and sociological health. We discover the source of our morality and find that--like the Grail--it gives us health and life. And also like the Grail, it is the quest for its discovery that reveals our true nature.

Holy Warriors Apr 20 2022 The medieval code of chivalry demanded that warrior elites demonstrate fierce courage in battle, display prowess with weaponry, and avenge any strike against their honor. They were also required to be devout Christians. How, then, could knights pledge fealty to the Prince of Peace, who enjoined the faithful to turn the other cheek rather than seek vengeance and who taught that the meek, rather than glorious fighters in tournaments, shall inherit the earth? By what logic and language was knighthood valorized? In Holy Warriors, Richard Kaeuper argues that while some clerics sanctified violence in defense of the Holy Church, others were sorely troubled by chivalric practices in everyday life. As elite laity, knights had theological ideas of their own. Soundly pious yet independent, knights proclaimed the validity of their bloody

profession by selectively appropriating religious ideals. Their ideology emphasized meritorious suffering on campaign and in battle even as their violence enriched them and established their dominance. In a world of divinely ordained social orders, theirs was blessed, though many sensitive souls worried about the ultimate price of rapine and destruction. Kaeuper examines how these paradoxical chivalric ideals were spread in a vast corpus of literature from exempla and chansons de geste to romance. Through these works, both clerics and lay military elites claimed God's blessing for knighthood while avoiding the contradictions inherent in their fusion of chivalry with a religion that looked back to the Sermon on the Mount for its ethical foundation.

Medieval Chivalry May 29 2020 Richard Kaeuper presents a new analysis of chivalry, re-interpreting it as a fundamental aspect of medieval society.
