“The gripping story of the most important environmental law case ever decided by the U.S. Supreme Court. Richard Lazarus’s compelling narrative is enlivened by colorful characters, a canny dissection of courtroom strategy, and a case where the stakes are, literally, as big as the world.” —Scott Turow, author of *Presumed Innocent* “There’s no better book if you want to understand the past, present, and future of environmental litigation.” —Elizabeth Kolbert, author of *The Sixth Extinction* The gripping inside story of how an unlikely team of lawyers and climate activists overcame conservative opposition—and their own divisions—to win the most important environmental case ever brought before the Supreme Court. When the Supreme Court announced its ruling in *Massachusetts v. EPA*, the decision was immediately hailed as a landmark. But this was the farthest thing from anyone’s mind when Joe Mendelson, an idealistic lawyer working on a shoestring budget for an environmental organization no one had heard of, decided to press his quixotic case. In October 1999, Mendelson hand-delivered a petition to the Environmental Protection Agency asking it to restrict greenhouse gas emissions from new cars. The Clean Air Act had authorized the EPA to regulate “any air pollutant” that could reasonably be anticipated to endanger public health. But could something as ordinary as carbon dioxide really be considered a harmful pollutant? And even if the EPA had the authority to regulate emissions, could it be forced to do so? Environmentalists urged Mendelson to stand down. Thinking of his young daughters and determined to fight climate change, he pressed on—and brought Sierra Club, Greenpeace, NRDC, and twelve state attorneys general led by Massachusetts to his side. This unlikely group—they called themselves the Carbon Dioxide Warriors—challenged the Bush administration and took the EPA to court. The Rule of Five tells the story of their unexpected triumph. We see how accidents, infighting, luck, superb lawyering, and the arcane practices of the Supreme Court collided to produce a legal miracle. An acclaimed advocate, Richard Lazarus reveals the personal dynamics of the justices and dramatizes the workings of the Court. The final ruling, by a razor-thin 5–4 margin, made possible important environmental safeguards which the Trump administration now seeks to unravel. USA Today Bestseller From the #1 New York Times bestselling author of The Residence and First Women—also a New York Times bestseller—comes a poignant, news-making look at the lives of the five former presidents in the wake of their White House years, including the surprising friendships they have formed through shared perspective and empathy. After serving the highest office of American government, five men—Jimmy Carter, the late George H. W. Bush, Bill Clinton, George W. Bush, and Barack Obama—became members of the world’s most exclusive fraternity. In Team of Five, Kate Andersen Brower goes beyond the White House to uncover what, exactly, comes after the presidency, offering a glimpse into the complex relationships of these five former presidents, and how each of these men views his place in a nation that has been upended by the Oval Office’s current, norm-breaking occupant, President Donald Trump. With an empathetic yet critical eye and firsthand testimony from the Carters, Donald Trump, and the top aides, friends, and family members of the five former presidents, Team of Five takes us inside the exclusive world of these powerful men and their families, including the unlikely friendship between George W. Bush and Michelle Obama, the last private visits Bill Clinton and Barack Obama shared with George H.W. Bush, and the Obamas’ flight to Palm Springs after Donald Trump’s inauguration. Perhaps most timely, this insightful, illuminating book overflows with anecdotes about how the ex-presidents are working to combat President Trump’s attempts to undo the achievements and hard work accomplished during their own terms. Perhaps most poignantly, Team of Five sheds light on the inherent loneliness and inevitable feelings of powerlessness and frustration that come with no longer being the most important person in the world, but a leader with only symbolic power. There are ways, though, that these men, and their wives, have become powerful political and cultural forces in American life, even as so-called “formers.” Team of Five includes 16 pages of color photographs. In Gang of Five, bestselling author Nina J. Easton adds an important element to the history of American politics in the last thirty years. This is the story of the other, less well known segment of the baby-boom generation. These are young conservative activists who arrived on campus in the 1970s in rebellion against everything "sixties" and went on to overturn the political dynamics of the country in the 1980s and 1990s. They've been waging what Newt Gingrich called a "war without blood" for three decades. Gang of Five portrays the intertwining careers of five major figures: BILL KRISTOL, the Harvard-educated elitist and publisher of the Weekly Standard, is the liberal establishment's worst nightmare -- a witty, erudite Rightist who was a leading force behind the demise of the Clinton health care plan, the historic reform of welfare, and the decision of House Republicans to impeach the president. RALPH REED, the hardball politico who helped turn an organization called the College Republicans into a kind of communist cell of the Right, in the 1990s tried to give the Religious Right a softer face as leader of the Christian Coalition but was thwarted by his thirst for power and the narrow fundamentalism of his activist followers. CLINT BOLICK, a leading force in the spread of school choice programs and the anti-affirmative action strategist who sank Lani Guinier's appointment, is the idealist who seeks to convince civil rights leaders that his legal work on behalf of disadvantaged minorities is sincere and that liberal programs hurt the people they are meant to help. GROVER NORQUIST, the "market Leninist" who divides the world into "good" and "evil," is at the hub of Hillary Clinton's "vast right-wing conspiracy" and is the architect of a no-new-taxes pledge signed by all major Republican candidates in the 1990s. DAVID MCINTOSH, the policy wonk who took the movement's war on Washington to Congress as leader of the House Republican freshmen during the Gingrich Revolution, pushed his party toward confrontation with the White House and is now running for governor in Indiana. In contrast to earlier generations of conservatives, these leaders and their allies tasted success, first with Ronald Reagan's twin victories in the 1980s and then, in the 1990s, with the Republican capture of Congress. They play to win and have had a hand in every major insurrection from the Right over the past two decades -- from abortion politics to government shutdowns to political muckracking. No politician can ignore their agenda or escape the new hardball rules they've written for national politics. The heavens and earth are the army, I am the general, Hong Yu is the official, and I am the king. The Heaven and Earth, the determinant of destiny. A heaven's pride level expert of this era had to bear the blessing of the Five Gods, changing his fate in a way that defied the will of the heavens. In the blink of an eye, the world had been turned upside down. Hot blood is eternal, passion is in all directions, fight with me to the sky! Fight! ?
