The Twenty Days of Turin: A Novel Apr 21 2022 Named one of NPR's Best Books of 2017 Written during the height of the 19 Italian domestic terror, a cult novel, with distinct echoes of Lovecraft and Borges, makes its English-language debut. In the spare wing of a church-run sanatorium, some zealous youths create "the Library," a space where lonely citizens can read on another's personal diaries and connect with like-minded souls "dialogues across the ether." But when their scribblings devolve into the ugliest confessions of the macabre, the Library's users learn too late that a malicious force has consumed their privacy and their sanity. As the city of Turin suffers a twenty-day "phenomenon of collective psychosis" culminating in nightly massacres that hundreds of witnesses cannot explain, the Library is shut down and erased from history. That is, until a lonely salaryman decides to investigate these mysterious events, which the citizenry of Turin fear to mention. Inevitably drawn into the city's occult netherworld, he unearths the stuff of modern nightmares: what's shared can never be unshared. An allegory inspired by the grisly neo-fascist campaigns of its day, *The Twenty Days of Turin* has enjoyed a fervent cult following in Italy for forty years. Now, in a fretful new age of "lone-wolf" terrorism fueled by social media, we can find uncanny resonance in Giorgio De Maria's vision of mass fear: a mute, palpating dread that seeps into every moment of daily existence. With its stunning anticipation of the Internet—and the apocalyptic repercussions of oversharing—this bleak, prescient story is more disturbingly pertinent than ever. Brilliantly translated into

English for the first time by Ramon Glazov, *The Twenty Days of Turin* establishes De Maria's place among the literary ranks of Italo Calvino and beside classic horror masters such as Edgar Allan Poe and H. P. Lovecraft. Hauntingly imaginative, with visceral prose that chills to the marrow, the novel is an eerily clairvoyant magnum opus, long overdue but ever timely.

*Life at Home in the Twenty-First Century* July 12 2021 Winner of the 2014 John Collier Jr. Award Winner of the Jo Anne Stolaro Cotsen Prize *Life at Home in the Twenty-First Century* cuts the ranks of important books on social history, consumer contemporary culture, the meaning of material culture, domestic architecture, and household ethnoarchaeology. It is a distant cousin of *Material World* and *Hungry Planet* in content and style but represents a blend of rigorous science and photography that these books can claim. Using archaeological approaches to human material culture, this volume offers unprecedented access to the middle-class American home through the kaleidoscopic lens of no-limits photography and many kinds of never-before acquired data about how people actually live their lives at home. Based on a rigorous, nine-year project at UCLA, this book has appeal not only to scientists but also to all people who share intense curiosity about what goes on at home in their neighborhoods. Many who read the book will see their own lives mirrored in these pages and can reflect on how other people cope with their mountains of possessions and other daily challenges. Readers abroad will be equally fascinated by the contrasts between their own kinds of materialism and the typical American experience. The book will interest a range of designers, builders and architects as well as scholars and students who research various facets of U.S. and global consumerism, cultural history,

and economic history.

The House of Twenty Thousand Books Aug 25 2022 A tender and compelling memoir of the author's grandparents, their literary salon, and a way of life that is no more. The House of Twenty Thousand Books is the story of Chimen Abramsky, an extraordinary polymath and bibliophile who amassed a vast collection of socialist literature and Jewish history. For more than fifty years Chimen and his wife, Miriam, hosted epic gatherings in their house of books that brought together many of the age's greatest thinkers. The atheist son of one of the century's most important rabbis, Chimen was born in 1916 near Minsk, spent his early teenage years in Moscow while his father served time in a Siberian labor camp for religious proselytizing, and then immigrated to London, where he discovered the writings of Karl Marx and became involved in left-wing politics. He briefly attended the newly established Hebrew University in Jerusalem, until World War II interrupted his studies. Back in England, he married, and for many years he and Miriam ran a respected Jewish bookshop in London's East End. When the Nazis invaded Russia in June 1941, Chimen joined the Communist Party, becoming a leading figure in the party's National Jewish Committee. He remained a member until 1958 when, shockingly late in the day, he finally acknowledged the atrocities committed by Stalin. In middle age, Chimen reinvented himself once more, this time as a liberal thinker, humanist, professor, and manuscripts' expert for Sotheby's auction house. Journalist Sasha Abramsky re-creates here a lost world, bringing

to life the people, the books, and the ideas that filled his grandparents' house, from gatherings that included Eric Hobsbawm and Isaiah Berlin to books with Marx's handwritten notes, William Morris manuscripts and woodcuts, an early sixteenth-century Bomberg Bible, and a first edition of Descartes's Meditations. The House of Twenty Thousand Books is a wondrous journey through our times, from the vanished worlds of Eastern European Jewry to the cacophonous politics of modernity. The House of Twenty Thousand Books includes 43 photos.

The Twenty-Seventh Wife Jan 23 2022 The big passionate novel of a woman daring to live and love freely—no matter what the price. She was forced to choose between one man's love and her own pride as a woman. Brigham married one woman too many when he took Ann Eliza Webb as his twenty-seventh wife. He was the leader of the polygamous Mormon faith, as powerful in the Utah Territory as the President of the United States. She was a great beauty with a quiet manner—and an iron will. For four years, Eliza lived in Brigham Young's harem as his 27th wife. Then, one summer morning, she walked out, deserting her husband and suing him for divorce...

Capital in the Twenty-First Century Dec 17 2021 What are the grand dynamics that drive the accumulation and distribution of capital? Questions about the long-term evolution of inequality, the concentration of wealth, and the prospects for economic growth lie at the heart of political economy. But satisfactory answers have been hard to find for lack of adequate data and clear guiding theories. In this work the author analyzes a unique collection of data from twenty countries, ranging as far back as the eighteenth century, to uncover key economic and social patterns. His findings transform debate and set the agenda for the next generation of thought about wealth and inequality. He shows that modern economic growth and the diffusion of knowledge have allowed us to avoid inequalities on the apocalyptic scale predicted by Karl Marx. But we have not modified the deep structures of capital and inequality as much as we thought in the optimistic decades following World War II. The main driver of inequality--the tendency of returns on capital to exceed the rate of economic growth--today threatens to

generate extreme inequalities that stir discontent and undermine democratic values if political action is not taken. But economic trends are not acts of God. Political action has curbed dangerous inequalities in the past, the author says, and may do so again. This original work reorients our understanding of economic history and confronts us with sobering lessons for today.

Twenty captures the provocative moral questions presented in the works of Jodi Picoult but with a hint of mystical wonder. What happens when you decide to go...right when you finally learn how to live again? "Along with naming me Marguerite after her favorite daisy, Mama gave me three things: Red hair that hasn't faded. A love of nature. And a belief that somewhere between heaven and earth there is magic." At age fifty-five, Meg's life is too filled with love for her to remember what magic feels like. All she has left is a yard brimming with plants that are wilting in the scorching low summer—and a bone-deep feeling that she's through with living. Meg has something else too: a bottle of mysterious pills, given her years ago by an empathetic doctor. He promised that they would offer her dying mother a quick, painless end in exactly twenty days. Though her mother never needed them, Meg does. But a strange thing happens after Meg swallows the little green pearls . . . Now that she's decided to leave this world, Meg is rediscovering the joy in it. She sheds everything she no longer needs—possessions, regrets, guilt—and reconnects with those she cares for. Finally confronting the depth of her grief, she's learning that love runs deeper still. But is it too late to choose

stay? "Twenty reminds us to live with our hearts wide open even when they've been broken, and how to love even when it hurts." —Julie Cantrell, New York Times and USA Today bestselling author of *Perennials* "Written with such strong and heartfelt faith in the magic and power of never-ending love, it will renew your own." —Judy Reene Singer, author of *In the Shadow of Alabama*

**An Introduction to Global Media for the Twenty-First Century** Apr 28 2020 *An Introduction to Global Media for the Twenty-First Century* provides a thorough introduction to the field of global media today. The book presents the key changes taking place as the global media landscape evolves, and the main theories of the field, that explain these developments. Tracing,

first, the formative development of an international and global media landscape throughout the 20th century from the telegraph, television and film export, and transnational television to the Internet, the book then focuses on developments in the 21st century. This includes: the digitization of the global media and communications sector; the popularization of the Internet and digital infrastructure such as the smartphone and platforms; the emergence of global online media and services; the production and distribution of digital media content; and the exploitation of user data. Case studies illustrate key developments throughout the book. The book shows how the field is characterized by a continuity of critical concerns in relation to power, influence, and domination; media user empowerment and exploitation; and social and sustainable development and democratic conditions, well as geopolitical shifts, in a global context.

Twenty-Two Feb 19 2022 Returning home at twenty past midnight on the first day of that year Ellis opened the book he had been saving for 2020. The next day he washed the scarlet tablecloth with the Christmas design and placed it over the hood in the kitchen to dry. He read half a page of Anniversaries and then filled the washing-machine with towels and a plastic bucket half-filled with liquid detergent. The days passed. At 10pm Ellis started watching Sky News but stopped when he discovered that the lead story was about Prince Harry and his wife. Later he went to bed and read three more pages of Anniversaries. On another day Ellis went online and read that the inaugural Hay Festival Abu Dhabi had published its programme for next month. It included Booker-winner Bernardine Evaristo and Baillie Gifford Prize-winner Hallie Rubenhold as well as historian William Dalrymple, and Nigerian Nobel Prize-winner Wole

Soyinka. The days passed. Ellis read opinions on social media. He read the Times. Ellis's sense of alienation from the prevailing literary and political culture of his society was acute. Ellis did some weeding. Before the end of January the death toll from the Coronavirus had risen to 26 in China, with 830 infected. And so it went on, that year of the pandemic. Books, movies, tweets. The days passed. On and on, to that last bitterly cold morning, blue sky, sun, everywhere outside white with frost. The last day of 2020. The final entry. 2020. The chronicle of a year.

Writing Architectural History Mar 28 2020 Over the past two decades, scholarship in architectural history has transformed, moving away from design studio pedagogy and postmodern historicism to draw instead from trends in critical theory focusing on gender, race, the environment, and more recently global history, connecting to revisionist trends in other fields. With examples across space and time—from medieval European coin trials and eighteenth-century Haitian revolutionary buildings to Weimar German construction firms and present-day African refugee camps—Writing Architectural History considers the impact of these shifting institutional landscapes and disciplinary positionings for architectural history. Contributors reveal how new methodological approaches have developed interdisciplinary research beyond the traditional boundaries of art history departments and architecture schools, and explore challenges and opportunities presented by conventional and unorthodox forms of evidence and narrative, the tools used to write history.

Nomadland: Surviving America in the Twenty-First Century Mar 20 2022 The inspiration for Chloé Zhao's 2020 Golden Lion award-winning film starring Frances McDormand. "People who

thought the 2008 financial collapse was over a long time ago to meet the people Jessica Bruder got to know in this scorching beautifully written, vivid, disturbing (and occasionally wryly funny) book." —Rebecca Solnit From the beet fields of North Dakota to the campgrounds of California to Amazon's CamperForce program in Texas, employers have discovered a new, low-cost labor pool, made up largely of transient older adults. These invisible casualties of the Great Recession have taken to the road by the tens of thousands in RVs and modified vans, forming a growing community of nomads. *Nomadland* tells a revelatory tale of the dark underbelly of the American economy—one which foreshadows the precarious future that await many more of us. At the same time, it celebrates the exceptional resilience and creativity of these Americans who have given up ordinary rootedness to survive, but have not given up hope.

The Twenty-Six Words That Created the Internet Sep 21 2019

"No provider or user of an interactive computer service shall be treated as the publisher or speaker of any information provided by another information content provider." Did you know that these twenty-six words are responsible for much of America's multibillion-dollar online industry? What we can and cannot write, say, and do online is based on just one law—a law that protects online services from lawsuits based on user content. Kosseff exposes the workings of Section 230 of the Communications Decency Act, which has lived mostly in the shadows since its enshrinement in 1996. Because many segments of American society now exist largely online, Kosseff argues that we need to understand and pay attention to what Section 230 really means and how it affects what we like, share, and comment upon every day. *The Twenty-Six Words That Created the Internet* tells the story of the institutions that flourished as a result of this powerful statute. It introduces us to those who created the law, those who advocated for it, and those involved in some of the most prominent cases decided under the law. Kosseff assesses the law that has facilitated freedom of online speech, trolling, and much more. His keen eye for the law, combined with his background as an award-winning journalist, demystifies a statute that affects all our lives—for good and for ill. While Section 230 may be imperfect and in need of refinement, Kosseff maintains that it is necessary to foster free speech and innovation. For filings from many of the cases discussed in the book and updates about Section 230, visit [jeffkosseff.com](http://jeffkosseff.com)

US-China Relations in the Twenty-First Century Oct 03 2020 The relationship between the United States and China will be of critical importance to the world throughout the twenty-first century. In the West China's rise is often portrayed as a threat and China seen in negative terms. This book explores the dynamics of this crucial relationship. It looks in particular at what causes an international relationship to be perceived negatively, and considers what can be done to reverse this, arguing that trust is a key factor. It goes on to discuss US and Chinese rhetoric and behaviour in three key areas - climate change, finance, and international security. The book contends that, contrary to much US rhetoric, China's actions in these areas is often much more flexible and accommodating than the

US position, and that the Chinese are much more knowledgeable about, and understanding and appreciative of, the United States than vice versa.

The Twenty-Year Death Nov 16 2021 THERE'S NEVER BEEN A BOOK LIKE THE TWENTY-YEAR DEATH A breathtaking first novel written in the form of three separate crime novels, each set in a different decade and penned in the style of a different giant of the mystery genre. 1931— The body found in gutter in France led the police inspector to the dead man's beautiful daughter—and to her hot-tempered American husband. 1941— A hardboiled private eye hired to keep a movie studio's leading lady happy uncovers the truth behind the brutal slaying of a Hollywood starlet. 1951— A desperate man pursuing his last chance at redemption finds himself with blood on his hands and the police on his trail... Three complete novels that, taken together, tell a single epic story, about an author whose life is shattered when violence and tragedy consume the people close to him. It is an ingenious and emotionally powerful debut performance from literary detective and former bookseller Arie S. Winter, one that establishes this talented newcomer as a storyteller of the highest caliber.

The Twenty-Nine Oct 27 2022 America is in turmoil. The states are no longer united, and the path of their division may be leading us all to annihilation. When young Derek joined the Marine Corps his intentions were simply to provide himself with a better life. He never dreamed he would be facing combat against fellow Americans, or staring down a mushroom cloud on his own home soil. Americans are beginning to wonder if our differences will be the end of our great nation, or if we will find a way to unite our people and reclaim our freedom.

Goncharov in the Twenty-First Century July 06 2021 Goncharov in the Twenty-First Century brings together a range of international scholars for a reexamination of Ivan Goncharov's life and work through a twenty-first century critical lens. Contributions to the volume highlight Goncharov's service career, the complex and understudied manifestation of Realism in his work, the diverse philosophical threads that shape his novels, and the often colliding contexts of writer and imperial bureaucrat in the 1858 travel text *Frigate Pallada*. Chapters engage with approaches from post-colonial and queer studies, theories of genre and the novel, desire, laughter, technology, and mobility and travel.

Conrad in the Twenty-First Century July 11 2021 Best known as the author of *Heart of Darkness*, Joseph Conrad (1857-1924) one of the most widely taught writers in the English language. Conrad's work has taken on a new importance in the dawning of the 21st century: in the wake of September 11 many cultural commentators returned to his novel *The Secret Agent* to discuss the roots of terrorism, and the overarching theme of colonialism in much of his work has positioned his writing as central to not only literature scholars, but also to postcolonial and cultural studies scholars and, more recently, to scholars interested in globalization. *Reading Conrad Now* is a collection of original essays by leading Conrad scholars that rereads Conrad in light of his representations of post-colonialism, of empire, imperialism, and of modernism and modernity-questions that are once again relevant today. The collection is framed by an introduction by J. Hillis Miller-one of the most important literary critics today-and a concluding extensive interview with Edward Said (one of his final interviews before his death on September 25, 2003)- the

most prominent postcolonial critic-addressing his lifelong fascination with Conrad. *Reading Conrad Now* will be essential reading for anyone seeking a contemporary introduction to this great writer, and will be of great interest to scholars working with Conrad in a variety of fields including literary studies, cultural studies, ethnic and area studies, and postcolonial studies.

2021  
Wendy Cadge and Shelly Rambo demonstrate the urgent need, highlighted by the COVID-19 pandemic, to position the long history and practice of chaplaincy within the rapidly changing landscape of American religion and spirituality. This book provides a much-needed road map for training and renewing chaplains across a professional continuum that spans major sectors of American society, including hospitals, prisons, universities, the military, and nursing homes. Written by a team of multidisciplinary experts and drawing on ongoing research at the Chaplaincy Innovation Lab at Brandeis University, *Chaplaincy and Spiritual Care in the Twenty-First Century* identifies three central competencies—individual, organizational, and meaning-making—that all chaplains must have, and it provides the resources for building those skills. Featuring profiles of working chaplains, the book positions intersectional issues of religious diversity, race, ethnicity, gender, sexuality, and other markers of identity as central to the future of chaplaincy as a profession.

Campaigning in the Twenty-First Century Feb 07 2021 So much has changed during the past decade in political campaigning that we can almost say "it's a whole new ball game." This book analyzes the way campaigns were traditionally run and the extraordinary changes that have occurred in the last decade. Dennis W. Johnson looks at the most sophisticated techniques of modern campaigning—micro-targeting, online fundraising, digital communication, the new media—and examines what has changed and how those changes have dramatically transformed campaigning and what has remained fundamentally the same despite new technologies and communications. Campaigns are becoming more open and free-wheeling, with greater involvement of activists and average voters alike. But they can also become more chaotic and difficult to control. Campaigning in the Twenty-First Century presents daunting challenges for candidates and professional consultants as they try to get their messages out to voters. Ironically, the more open and robust campaigns become, the greater is the need for seasoned, flexible and imaginative professional consultants.

Two and Twenty May 30 2020 The first true insider's account of private equity, revealing what it takes to thrive among the world's hungriest dealmakers "Brilliant . . . eloquently takes readers inside the heroic world of private equity . . . [an] essential read."—Forbes ONE OF THE MOST ANTICIPATED BOOKS

OF THE SUMMER—Bloomberg Private equity was once an investment niche. Today, the wealth controlled by its leading firms surpasses the GDP of some nations. Private equity has overtaken investment banking—and well-known names like Goldman Sachs and Morgan Stanley—as the premier destination for ambitious financial talent, as well as the investment dollars of some of the world’s largest pension funds, sovereign wealth funds, and endowments. At the industry’s pinnacle are the firms’ partners, happy to earn “two and twenty”—that is, a flat yearly fee of 2 percent of a fund’s capital, on top of 20 percent of the investment spoils. Private equity has succeeded in near-stealth—until now. In *Two and Twenty*, Sachin Khajuria, a former partner at Apollo, gives readers an unprecedented view inside this opaque global economic engine, which plays a vital role underpinning our retirement systems. From illuminating the rituals of firms’ all-powerful investment committees to exploring key precepts (“think like a principal, not an advisor”), Khajuria brings the traits, culture, and temperament of the industry’s leading practitioners to life through a series of vivid and unvarnished deal sketches. *Two and Twenty* is an unflinching examination of the mindset that drives the world’s most aggressive financial animals to consistently deliver market-beating returns.

Castoriadis and Autonomy in the Twenty-first Century  
2020 To what degree can the philosophy of Cornelius Castoriadis help analyze and evaluate our current social reality in relation to the project of autonomy? How meaningful is his political proposition for direct democracy in the 21st century? What significance do the concepts of social time and social space have in the determination of political freedom? Castoriadis and Autonomy in the 21st Century presents basic concepts of Castoriadian philosophy, including the social-historical plane, ontological creativity, and social and individual time that provide the theoretical tools to evaluate the historical phenomena of our era. Drawing from Greece's own turbulent past and the current global crisis to reveal new significances of social freedom, global solidarity and movements of direct democracy, this book explores social autonomy and human freedom today through critical dialogue with Castoriadis' ideas.

James Grippando that touches on some of the most contentious issues roiling America today. It is the message every parent of school-age child fears: "Active Shooter on Campus." Jack Swytek is at his office when he receives the emergency text from Riverside Day School. Both his daughter, Righley, and his wife, FBI agent Andie Henning, are in danger. Andie is in the school's rec center when she hears the fire alarms, then loud popping noises and screams coming from the hallway. A trained law-enforcement officer, Andie knows she's supposed to stay locked down inside the room. But Righley is in her kindergarten classroom and Andie must get her to safety. The tragedy prompts mass hysteria—and dangerous speculation. The police haven't identified the shooter, but they find a handgun on the school grounds registered to a parent, a Muslim man named Amir Khoury. News of the gun and its owner leaks and quickly goes viral. Within minutes Al Qaeda claims responsibility. Andie is shocked—Amir is married to her friend, Lilly, a WASP whose bloodline goes back to the American Revolution. When Xavier, Amir and Lilly's oldest child and an eighteen-year-old senior at Riverside confesses to the crime, the local community's anti-Muslim fervor explodes to levels unseen since 9/11. Terrified for her son's life, Lilly asks Jack to step in. A seasoned defense attorney with a passion to see justice done, he's taken on plenty of complicated cases. Xavier's, however, is not one he's inclined to take—until an old friend who lost his daughter in the shooting tells him that he must. With the public calling for blood and prosecutors confident their case is airtight, Jack must unearth the Khourys' family secrets in order to expose the shocking truth and save his client from certain death. But he may not be able to save everyone—including himself.

Transnationalism and German-Language Literature in the  
Twenty-First Century Nov 04 2020 This book examines how  
German-language authors have intervened in contemporary  
debates on the obligation to extend hospitality to asylum seekers,  
refugees, and migrants; the terrorist threat post-9/11;  
globalisation and neo-liberalism; the opportunities and anxieties  
of intensified mobility across borders; and whether  
transnationalism necessarily implies the end of the nation state  
and the dawn of a new cosmopolitanism. The book proceeds  
through a series of close readings of key texts of the last two  
years, with an emphasis on the most recent works. Authors  
include Terézia Mora, Richard Wagner, Olga Grjasnowa,  
Marlene Streeruwitz, Vladimir Vertlib, Navid Kermani, Felicitas  
Hoppe, Daniel Kehlmann, Ilija Trojanow, Christian Kracht, and  
Christa Wolf, representing the diversity of contemporary  
German-language writing. Through a careful process of  
juxtaposition and differentiation, the individual chapters  
demonstrate that writers of both minority and nonminority  
backgrounds address transnationalism in ways that certainly  
vary but which also often overlap in surprising ways.
